Introduction

1.1 The eBonus tool allows approved users to post eBonus points or Frequent Flyer miles to a Marriott Bonvoy Member's account. This may occur because of a property promotion, service recovery, compensation for a walked Guest, or an above-property initiative.

- All entries over 10,000 points or 3,000 miles must be approved by an approver different than the person that posted the entry, within 48 hours of the initial entry, to meet the timeframe communicated to the Member.
- The points or miles that are issued with a property bonus are charged to the hotel as an expense.
- Users must complete training on the Digital Learning Zone (DLZ), request access through Identity Shoppe, and be approved by their supervisor, prior to using the tool. Approval takes approximately 3 business days. You will need an **EID** to request access

eBonus Reasons

1.2 The reasons available in the eBonus tool for awarding a points or a miles bonus include:

- Select **Walk** to compensate Elite Members for being unable to accommodate their stay, including points required to fulfil the Ultimate Reservation Guarantee.
  - Only Points may be awarded for this reason. Miles are not available.
- Select **Service Recovery** to compensate Members for service issues or other problems encountered while on property or in connection with their stay.
  Note: associate members are not eligible for service recovery.
- Select **Promotions** for promotions with designated rate codes.
- Select **Hotel Initiatives** to award points for food and beverage when the Guest is not staying at the hotel, and carry out Member appreciation initiatives available to the general public, or identified market segments approved by property leadership.
  - Use the job aid for 'Off Folio Earning', for specific steps to award points for off-folio dining.
- Select **Market/CLS** Initiatives to carry out short-term projects and proofs of concept approved by above-property leadership.

Email Notification

2.1 If a posting requires approval, the approver designated within the eBonus posting will receive an email notification, unless they have asked to turn the email notifications off. Marriott Bonvoy Guidelines require that entries are approved within 48 hours of posting.

- Use the link in the email to open the eBonus tool.

Searching for Pending Approvals

2.4 Select the **Pending Status** at the top of the form to search for entries that require approval.

- Complete the required fields marked with a red asterisk (*).
- Ensure the Bonus Earned Start Date is before 'today', and is early enough to include all unapproved eBonus entries.
- For example, if today is January 3, 2018, and you approve eBonus entries daily, enter a **Bonus Earned Start Date** of 01/02/2018 (yesterday) and **Bonus Earned End Date** of 01/03/2018 (today).
- Click **Submit.**

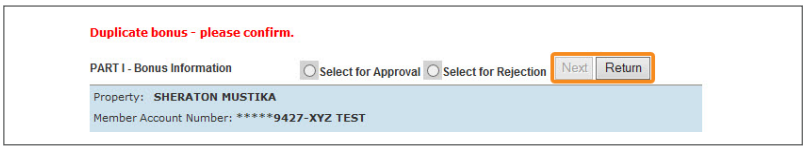
- Click the **Next** button to move to the next entry in the list, or click **Return** to go back to the Search Results screen.

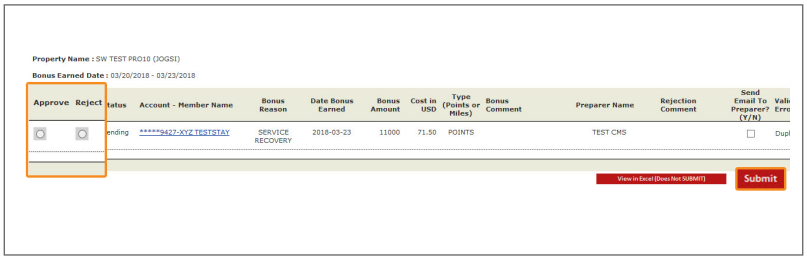


- There may be a message at the top of the screen indicating a validation error, such as a duplicate entry. You will only be able to reject these entries.

Alternate Review Process

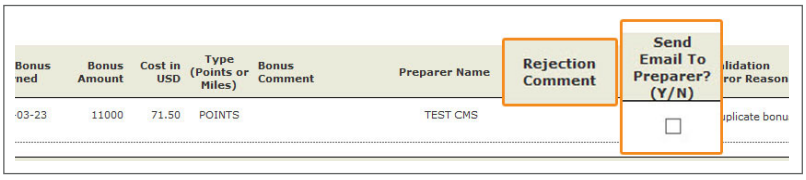
2.7 You may also select, approve or reject entries in the list view.

- When you are finished reviewing entries, click the **Submit** button.



Preparer Notification

2.8 Regardless of the review method selected, the preparer is notified via email unless you uncheck the **Send Email to Preparer** box.



- If you reject the entry, provide an explanation in the **Rejection Comment** field so that the preparer can re-submit correctly, if needed.

- You may not approve or reject your own entries.

Email Confirmation to a Member

2.9 The Marriott Bonvoy Member receives the points or miles immediately upon approval of the entry. They receive a confirmation email that includes the issuing property, the title of the bonus (the reason selected in the Bonus field), and the amount of points or miles issued.

- The Member statement will include details about the transaction, including the date, amount of points, and hotel name.
