Managing **Mobile Guest Services** at Your Hotel

Control Panel Administrator Guide

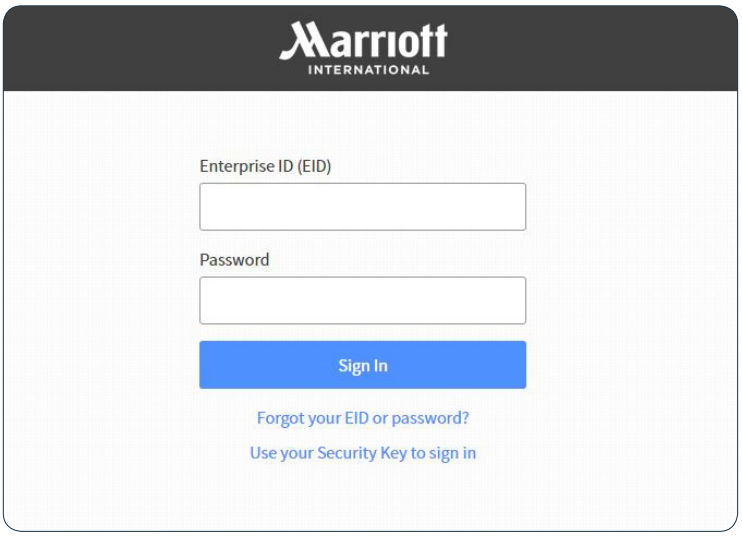
Overview

This guide is for hotel associates who need to complete administrative tasks in the Control Panel to support Mobile Guest Services. Each property should identify associates to receive administrative access, such as the Front Office Manager or other property managers.

These administrative tasks are completed using the Control Panel, a web-based tool which is **completely separate from your hotel's PMS**. Members submit their Mobile Services request and stay details through their mobile devices, which are then sent directly to the Control Panel. Because the Control Panel is not connected to your hotel's PMS, **you must manually update the members' details in your PMS to ensure reservations reflect the Mobile Services requested**.

In this Guide you will learn how to:

- Add, edit, or delete access for associates.
- Customize time displays.
- Run reports.



Accessing the Control Panel

To access the Control Panel and complete the Administrative tasks outlined in this guide:

1. Visit **http://psp.marriott.com/login.**
2. Enter your Marriott EID and password.
3. Click **Sign In.**

Add Associates

Associate access to the Control Panel is managed by the Control Panel Administrator at each hotel. Adding associates to the Control Panel should be integrated into the Front Office on-boarding process. Associates must have valid Marriott EID's before they can be added in the Control Panel. Once added, associates will have immediate access to the Control Panel.

To add a new user, follow these steps:

1. Under the Associates tab, click the + **Add New Associate** button.

Managing **Mobile Guest Services** at Your Hotel

(Add Associates continued)

2. Complete the **Add a new associate** form with the associate's information.

Add a new associate

*EID
jchang645

*First Name: Joe
*Last Name: Chang

Email address
joe.chang@westin.com
☑ Set Notification for Email Broadcast of All Requests

Phone Number
(Please prefix country code to phone number. For example For US, enter 1XXXXXXXXXX)
☐ Set Notification for SMS Broadcast of All Requests
Sorry, SMS notification is not available at your location.

Add **Email Address** and select **Set Notification** to receive system wide messages (these are not related to mobile check-in/out email notifications). This is a required field.

Phone number is not necessary.

Properties
The Westin Arlington Gateway(1513) | Sheraton Santa Maria de EL Paular(85)

*Primary Property
The Westin Arlington Gateway(1513)

Select the **Property** or **Properties** the associate works at. Identify the **Primary Property** if multiple hotels are listed.

* Application & Email Language
English

Applications you would like the user to access
☐ Meeting Services App ☑ Mobile Guest Services

Specify the role user will do in Meeting Services App and/or Mobile Guest Services
☐ Property Administrator

Specify the role user will do in Meeting Services App
☐ Audio Visual
☐ Billing Specialist
☐ Culinary
☐ Engineering
☐ Event Notification Group
☐ Event Operation
☐ Event Planning
☐ Event/Catering Services
☐ Food and Beverage Operation
☐ Read Only Administrator
☐ Security
☐ Shipping and Receiving

The default **Application and Email Language** is English. Must select **Mobile Guest Services** as the Application. The Property Administrator role is only for managers & supervisors and those that carry out administrative tasks.

Specify the role user will do in Mobile Guest Services
☑ Push Notifications
☐ Report Only

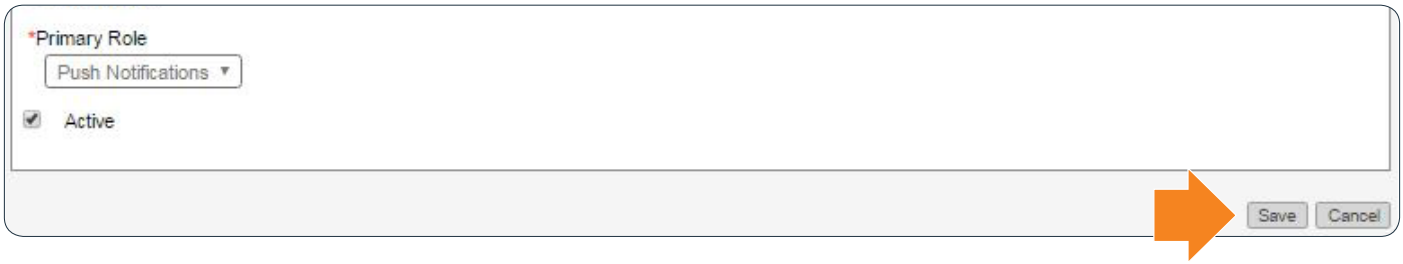
*Primary Role
Push Notifications

☑ Active

Select **Push Notifications** for all associates and **Report Only** if associate runs reports. (At least one role must be selected.) Ensure **Primary Role** is correct and **Active** box is checked for all users.

(Add Associates continued)

3. Ensure the details entered are correct and click **Save** at the bottom.



If successful, the new user will be added to the Associates tab.

Edit Associate Information

After adding an associate, the associate's information can be updated, if needed, in the future. For example, if an associate gains additional responsibility and needs to assist in running reports, he or she may need different access.

To edit the information for active associates, follow these steps:

1. Locate the associate under the Associates tab, then click the **Pencil** icon next to their name.

Managing **Mobile Guest Services** at Your Hotel

(Edit Associate Information continued)

2. Update the information in the **Edit Associate** form.

Edit Associate

☑ Push Notifications
☑ Report Only

*Primary Role
Push Notifications

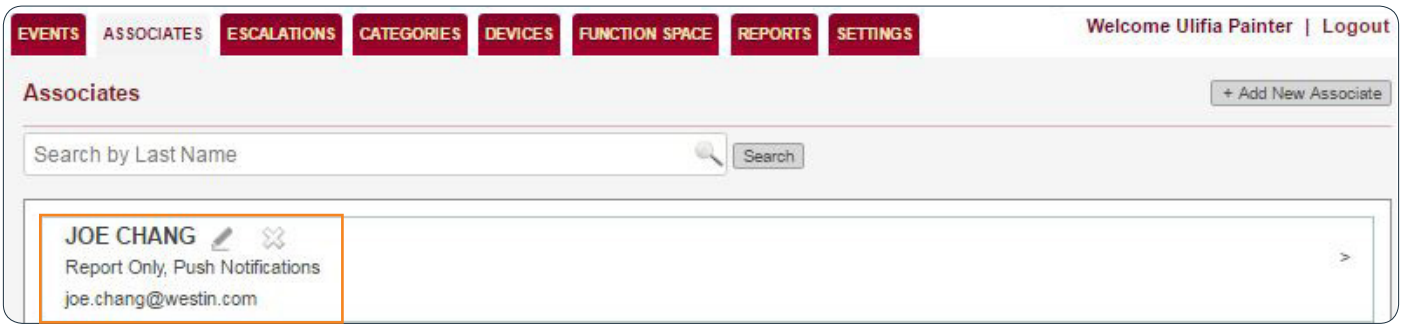
☑ Active

In this scenario, access to run reports was added to the associate's information. The Primary Role was selected as **Push Notifications**.

You can deactivate the associate by un-selecting the **Active** box. This removes the associate's Control Panel access.

(Edit Associate Information continued)

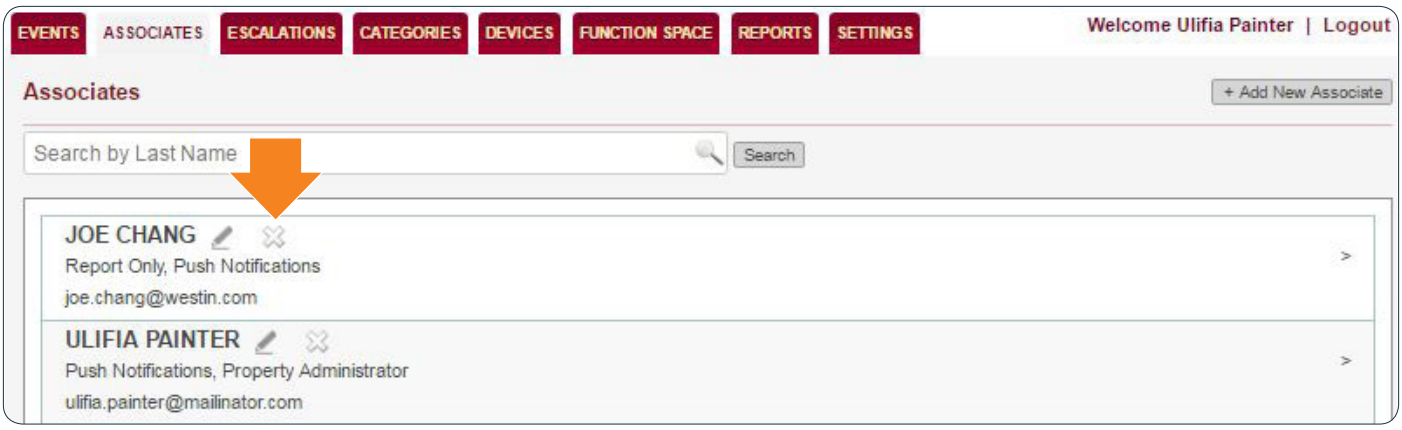
3. After making the changes, click **Save** at the bottom. If successful, the changes will be reflected on the **Associates** tab:



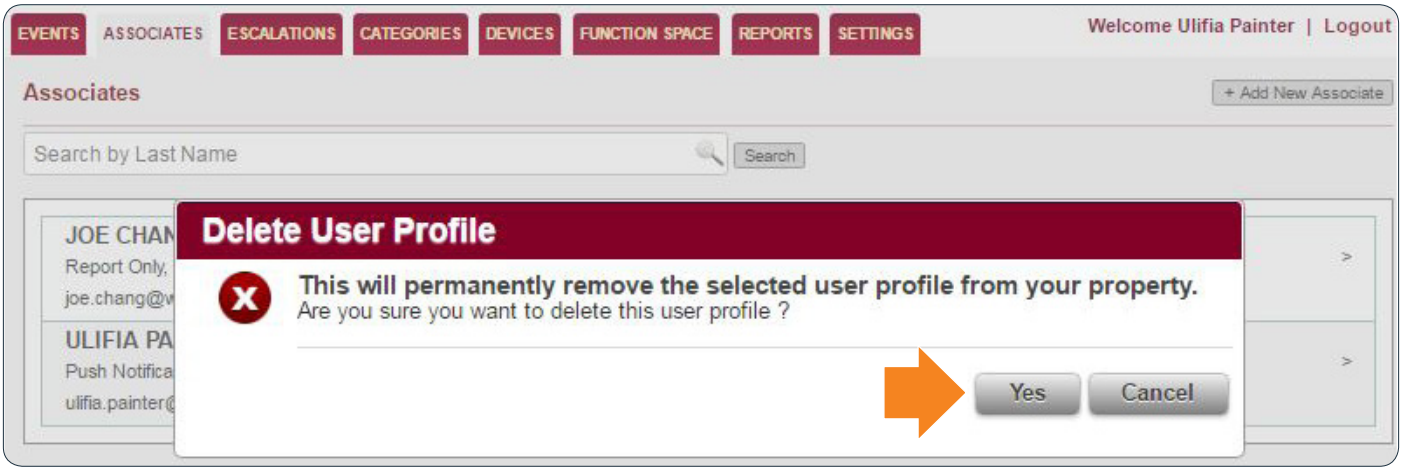
Delete Associates

If an associate no longer works at the hotel, remove their Control Panel access by deleting the associate. To do this:

1. Locate the associate under the **Associates** tab, then click the **X** icon next to their name.



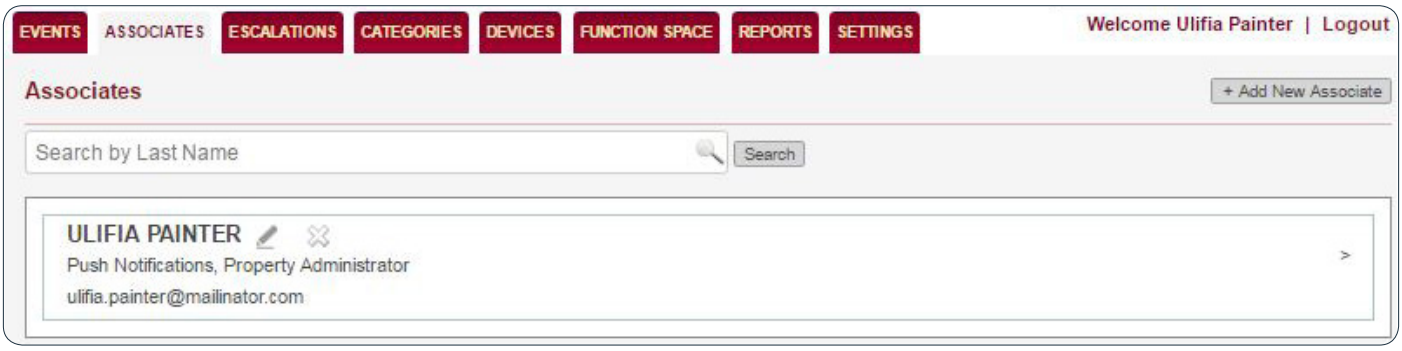
2. In the confirmation pop-up window, click **Yes.**



Managing **Mobile Guest Services** at Your Hotel

(Delete Associates continued)

If successful, the associate will no longer appear in the Associates tab.

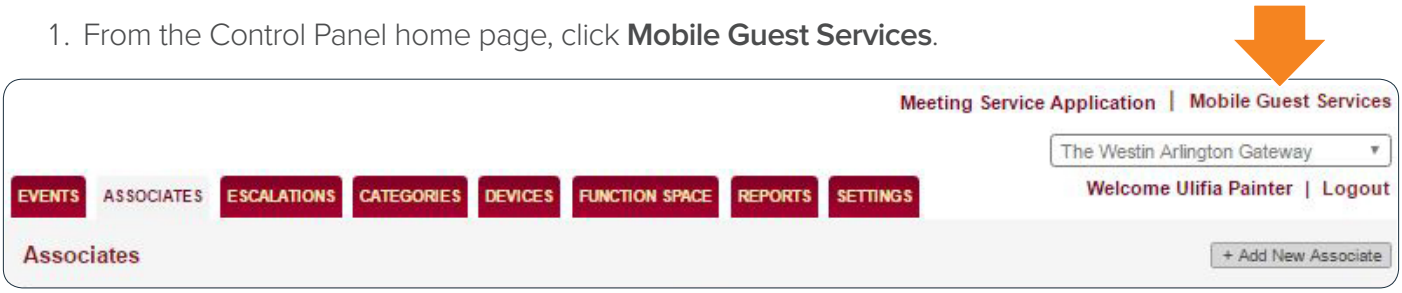


Managing Email Notifications

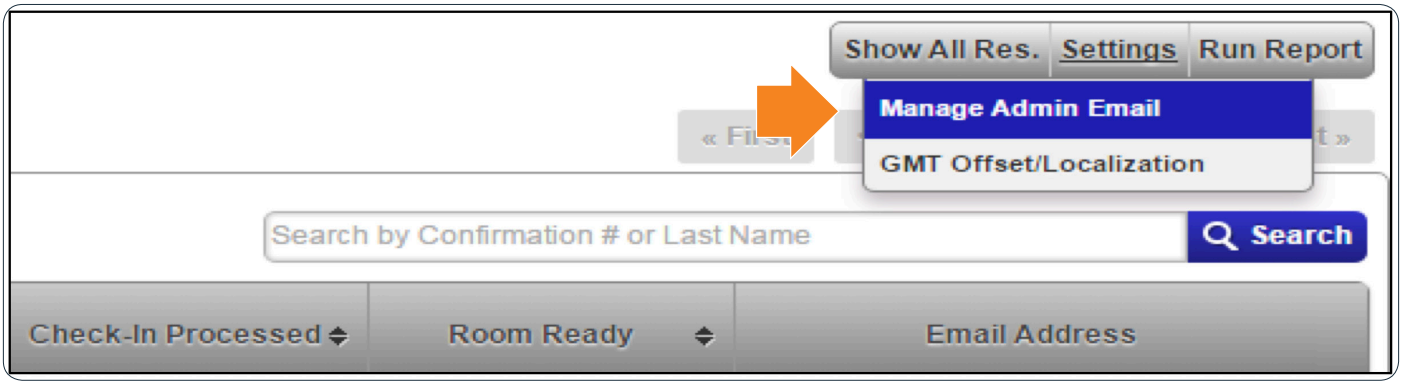
Email notifications are a great way to ensure associates flawlessly execute Mobile Guest Services. Notifications can be sent to up to 10 associates when Mobile Check-In or Check-Out requests are received.

To set up email notification distribution lists:

1. From the Control Panel home page, click **Mobile Guest Services**.



2. Then click **Settings**, then **Manage Admin Email**.

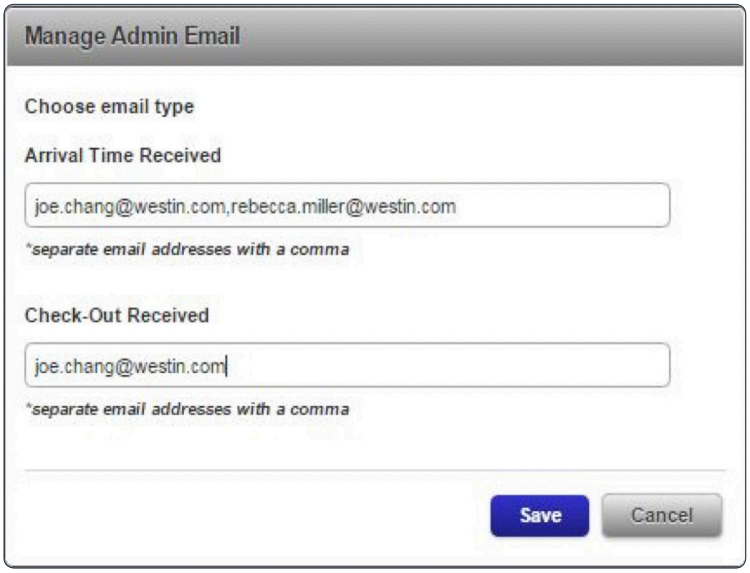


Managing **Mobile Guest Services** at Your Hotel

(Managing Email Notifications continued)

3. You can send separate email alerts for Mobile Check-In requests (listed as **Arrival Time Received**) and/or Mobile Check-Out requests (listed as **Check-Out Received**).
4. Enter up to 10 email addresses in the appropriate field(s). If more than 10 email addresses should receive a notification, create a group email distribution list in your email system, if possible, and use that list instead.

   Separate email addresses with commas *but no spaces*.
5. Click **Save**.

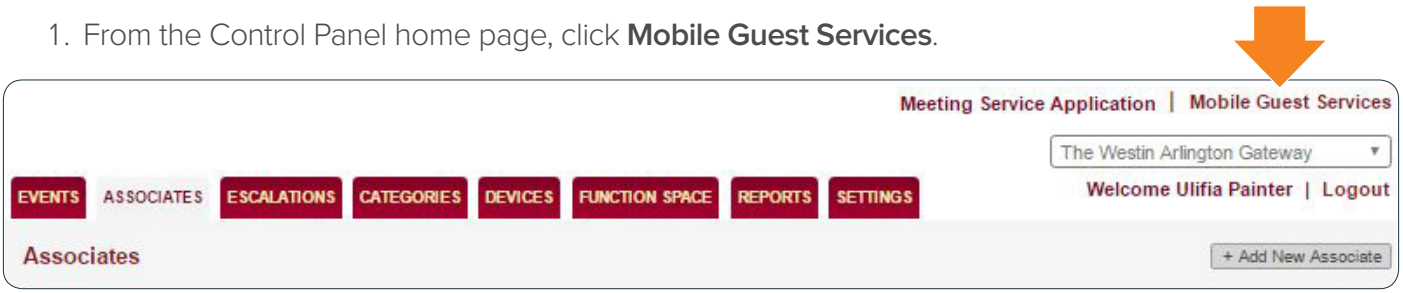


GMT Offset/Localization

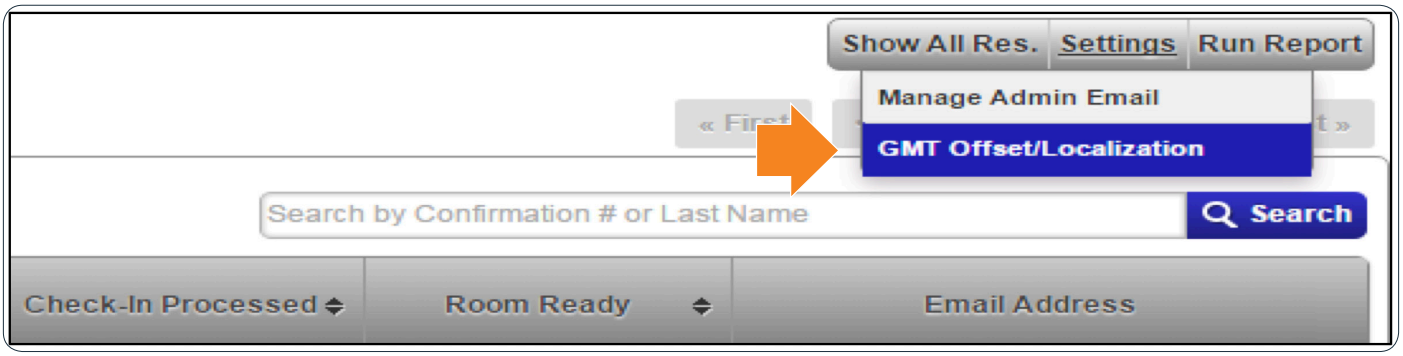
In this part of the Control Panel, the format for dates and times can be customized.

Here's how to complete this:

1. From the Control Panel home page, click **Mobile Guest Services**.



2. Then click **Settings**, then **GMT Offset/Localization**.



Managing **Mobile Guest Services** at Your Hotel

(GMT Offset/Localization continued)

3. Select the preferred **Date Format** by clicking **MM/DD/YYYY** (if you want the month to display first, e.g. “Aug 15”) or **DD/MM/YYYY** (if you want the date to display first, e.g. “15 Aug.”)
4. Select the preferred **Time Format** by clicking either **12 Hour Format** (e.g. “6:30 PM”) or **24 Hour Format** (e.g. “18:30”).
5. Set your property’s local time by making a selection in the **GMT Offset** menu and make sure the correct Local Time is displayed.
